

We Invented the World's Greatest Snow and Ice Melter Because We Had To.

Pioneers in the Science of Snow and Ice-Melting

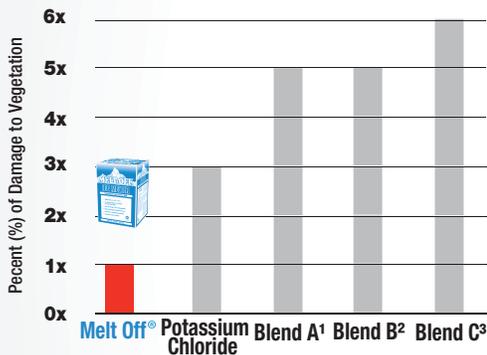

When you experience over 700 inches of snow every year, you're familiar with snow and ice issues. And when you live in the heart of the Rockies, you're probably sensitive to environmental concerns too. That's why customers have relied on us for over 50 years to develop formulas that work faster, longer and safer. Protecting our clients' assets is as important as melting the snow and ice.

Melt-Off® Ice Melter the Most Powerful De-Icer in it's Class

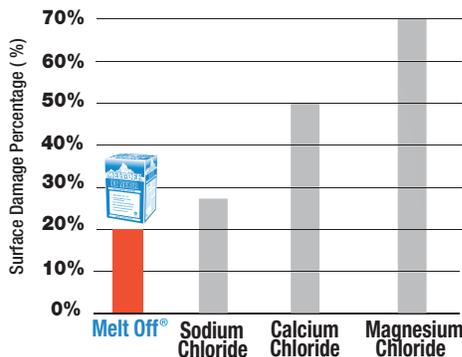

Created for residential customers who are looking for an affordable ice melter that still offers concrete and metal protection, Melt-Off® Ice Melter is a proprietary combination of solar salt and anti-corrosion agents.

- Effective to -5°F (-21°C)
- Less Damaging to Concrete and Metal
- Safer to Humans, Animals and Vegetation
- NSF Approved

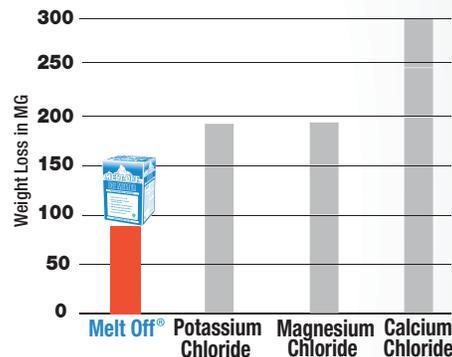

Relative Damage to Vegetation

Relative Damage to Concrete Surface (During Simulated Freeze/Thaw Cycles)

Steel Corrosion Damage Testing

¹ Blend A Contains: Sodium Chloride, Magnesium Chloride, Potassium Chloride
² Blend B Contains: Sodium Chloride, Magnesium Chloride
³ Blend C Contains: Sodium Chloride, Calcium Chloride, Magnesium Chloride

Nonfood Compounds Program Listed C1 131488

Ensure your driveways, sidewalks and parking structures are safe and secure.
