

EQUIPTER<sup>®</sup>  
RB 4000

RB 4000

## SIMPLIFYING DEBRIS MANAGEMENT

The Equipter® RB4000 lift series provides a unique option that was previously not available. It is compact, self-propelled dump trailer that significantly improves the debris management aspects of your industry. Equipter® created the RB4000 lift to improve efficiency and lower labor costs.

## BENEFITS OF THE RB4000 LIFT

The Equipter® RB4000 lift can be towed, driven, raised, and dumped. You are able to eliminate pain-staking aspects of debris removal by utilizing the RB4000's unique features. Customers love hiring companies that use the RB4000 lift because they understand that it allows contractors to get the job done quickly while lowering the risk of damage to their property.

# RB4000 FEATURES

## DRIVABLE

The RB4000 lift is self-propelled with a gasoline powered hydraulic system, large tires with exceptional traction, a tight turning radius to reach difficult spots, and evenly distributed weight so you won't leave marks on customers' lawns.

## TOWABLE

Towing the RB4000 lift is simple & efficient. It hooks up to your truck like any ordinary trailer, allowing you to easily haul the equipment to your job site, along with any materials you may need.

## RAISABLE

The RB4000 lift can raise up 12 feet, helping to improve efficiency on job sites. Having the container closer to the roof allows you to remove debris quickly without it falling onto your customer's property below.

## DUMPABLE

The RB4000 lift makes debris removal easier as well. After you've filled the container, simply drive it to where you want to unload the debris. Then use the hydraulic tailgate to dump debris into a larger truck or trailer to be hauled away.

## ROLLBACK

The RB4000 lift has a 4 foot rollback extension feature, which raises the container up & over flowers and landscaping.

### CONTAINER

The RB4000's container was designed and built to be lightweight and durable. The aluminum container is rust proof, will withstand the rigors of job sites, and is lightweight to transport.

### CATCHMENT

The RB4000's container has a 10.5 foot wide catch area, allowing you to work more efficiently, without having to re-adjust the equipment.

# RB4000 FEATURES

### DRIVE SYSTEM

Maneuvering through job sites is simple with the hydrostatic drive system powered by a 13 hp Honda engine.

### PRECISE TURNING

Get to those hard-to-reach places with precise turning, thanks to the 6 foot wide design of the RB4000 lift.

# RB4000 FEATURES

## WIDE TIRES

The RB4000 lift comes equipped with wide tires that are designed to prevent tracks on lawns and landscapes.

## STABILIZERS

The RB4000 lift has four independent stabilizers so that you can safely operate the equipment on uneven ground.

## POWER TAILGATE

The powered tailgate on the RB4000 lift allows you to dump from any position, with very little effort.

## WHEEL LIFT

Towing the RB4000 lift is simple, because the front wheels lift and the drive axle automatically disengages.

# RB4000 SPECIFICATIONS

**GROSS VEHICLE WEIGHT**

7,500 lbs.

**TRAILER TARE WEIGHT**

4,020 lbs.

**TONGUE WEIGHT** (empty)

600 lbs.

**TRAILER CAPACITY** (road towing)

3,360 lbs.

**JOB SITE LIFT CAPACITY**

4,000 lbs.

**CONTAINER SIZE** (inside)

4.1 cubic yards

**ROLL BACK EXTENSION**

4 ft.

**LIFT HEIGHT**

12 ft.

**EXTENDED CATCH AREA WIDTH**

10 ft. 6 in.

**OVERALL WIDTH**

6 ft. 4 in.

**OVERALL LENGTH**

13 ft. 6 in.

### ROOF CHUTE

Roof chutes help to channel debris towards the container, so you can keep working without worrying about moving the RB4000 lift frequently.

### GUTTER GUARD

Gutter guards also streamline the debris removal process by seamlessly covering gutters. This allows you to slide debris off of the roof and into the RB4000 lift without damaging the gutter.

# RB4000 ACCESSORIES

### REAR EXTENSION KIT

The self-supporting rear extension kit can be used with one or two pieces of plywood to direct debris into the RB4000 lift.

### TRACK MATS

The RB4000 lift is built to be lightweight and prevent damage. The track mats are an option for particularly delicate situations.

### OUTRIGGER PADS

Outrigger pads are an accessory that disperse the weight of the equipment to protect the ground beneath.

## OUR HISTORY

Aaron Beiler founded Equipter® after 15 years of running a successful residential roofing business. While working in the roofing industry, Aaron and his sons were always looking to increase profits and efficiency. They recognized that the key to this was debris removal and began creating innovative equipment to improve debris management.

Since 2004 Equipter® has continued to evolve and innovate, and we now have a line of products that help business owners in a variety of industries.

## OUR MOTIVATION

**Innovation** drives us. That's been true since day one. Equipter® began when Aaron, with help from his family, developed a vision for a new way to work, one that would revolutionize debris management.

**Quality** sustains us. We started as a roofing replacement business, so we understand firsthand that contractors need equipment as tough as their crews. Every Equipter® product is engineered and manufactured to withstand daily wear-and-tear on the job site.

**Relationships** guide us. Since 2004, our team has worked hard to build long-term relationships based on respect and mutual trust. We enjoy personal relationships with our customers and business partners.
